

CAREERS & OPPORTUNITIES

IN ORDER TO GRADUATE,
YOU NEED TO GET A PROFESSIONAL EXPERIENCE.

Internships must last
5 to 6 months maximum.

Permanent position (CDI), temporary position (CDD)
and freelance are accepted as long as the missions
are related to the data field.

BEFORE STARTING YOUR RESEARCH:

STACK ALL THE ODDS IN YOUR FAVOR!

Make sure you have updated all your materials before starting to apply.

Resume

- Make your DSTI skills clear and visible.
- Highlight your past experience.
- Focus on the skills that you are most interesting for your career and relevant to each application.

Cover letter

- Be brief and factual.
- Adapt your letter.
- Show that you're really interested in the company and the position.

LinkedIn

- LinkedIn is a very good networking tool.
- Make sure your profile is up to date and reflects your current status and background.

GitHub

- Your GitHub account is like your portfolio.
- Make sure you put your personal projects in it.
- If it's not updated it's not necessary to mention it in your resume.
